INTERNSHIPS AND PROJECTS

Projects	Weather App (Duration January 2025 - February 2025) The Weather App is a simple and interactive web app that provides current weather information for any city in the world. Built with HTML, CSS, and JavaScript, the app fetches real-time weather data using the OpenWeatherMap API. This allows users to quickly check the weather, including temperature, humidity, wind speed, and more. Skills used - HTML,CSS,JavaScript
	Todo-list app (Duration November 2024 - December 2024) Todo-List Application is a sleek and dynamic task management tool designed to help users organize their daily tasks efficiently. Built using HTML, CSS, and JavaScript, this project combines essential web development technologies to create an intuitive, user-friendly interface with interactive features. Whether you're managing personal tasks, work projects, or everyday reminders, this Todo-List app provides an organized solution for seamless productivity. Skills used - HTML,CSS,JavaScript
	Landing page (Task 1), Portfolio website (Task 2), Calculator (Task 3) (Duration September 2024 - October 2024) 1. A sleek and minimalistic landing page designed to give a perfect first impression built with HTML ,CSS. 2. Portfolio Website , This project showcases my skills, experience, and the projects I've worked on as a web developer. It includes sections on my key competencies, Home page, About section and contact form. 3. Simple Calculator Website A user-friendly web-based calculator built with HTML, CSS, and JavaScript. Perform basic arithmetic operations with a clean, responsive interface. Ideal for quick calculations and beginner web development practice. Skills used - HTML,CSS,JavaScript
	Simple calculator (Duration September 2024 - October 2024) Simple Calculator Website A user-friendly web-based calculator built with HTML, CSS, and JavaScript. Perform basic arithmetic operations with a clean, responsive interface. Ideal for quick calculations and beginner web development practice. Skills used - HTML,CSS,JavaScript
